

Personal Watercraft Trailers

From hauling 1 to hauling 4 at a time, Excalibur builds a Personal Watercraft trailer to suit your needs. The most recent addition to our PWC line is the new Heavy Duty Double trailer that is specially designed to carry the late model heavier 4 stroke models. As with all of our trailers, our PWC trailers feature full frame designs, fully welded (not bolted together), hot dipped galvanized finish, brand name components such as Fulton couplers, Carlisle tires, Dexter axle components, sealed premium lighting by Optronics and much more. All electrical connections are soldered and sealed with heat shrink tubing to form a completely sealed electrical system resulting in unsurpassed lighting reliability. All models come complete with winches and winch straps as well as fully adjustable bunks and winch towers for a perfect fit every time.
